

## Rogue Urethane Dumbbell (LBS)– FE016

<p><b>Description</b></p>	<ul style="list-style-type: none"> <li>◆ Rogue Urethane Dumbbells are sold in pairs and available in 5LB increments up to 150LB. As an alternative to traditional rubberized bells, this design features solid steel heads with a durable, shock-absorbent urethane plating, fully over-molded to the center. The heads are welded to a 6” straight hardened chrome handle to create a solid, single-piece dumbbell that moves fluidly and compactly and won’t damage your flooring on a drop.</li> <li>◆ Each precision-machined handle on Rogue’s Urethane Dumbbells is the same 6” in length and includes a medium-grade knurling for a firm but comfortable grip. The handle diameter is 31mm for bells up to 45LB and 34mm for bells 50LB and up.</li> <li>◆ The dumbbell heads vary in diameter from 127mm (for 5-15LB sizes) up to 204mm for bells 130LB and up. Each is finished in a distinct black matte with bright, clear increment markings and the Rogue logo in grey print. The combination of the urethane plating and textured finish makes these dumbbells uniquely low-maintenance, looking like new even after long periods of use.</li> </ul>
