

Smoking & Your Health Chart– BA058

<p>Description</p>	<p>◆ The Smoking and Your Health Poster is designed for children in grades K-12 to become educated about the side effects of long-term smoking. The poster uses detailed text and anatomical illustrations to explain the damage smoking does to the vital organs. This poster is a great educational tool and is suited for any classroom.</p>
<p>Details</p>	<ol style="list-style-type: none"> 1. Dimension: 24" x 36" 2. Material: gloss paper laminated with clear polyester both sides
<p>Image</p>	 <p>The poster, titled "Smoking & Your Health", features a central illustration of a person's head and torso with various organs highlighted. Surrounding this central figure are several smaller diagrams and text boxes explaining the health effects of smoking. Key sections include:</p> <ul style="list-style-type: none"> 4000 Substances in Each Puff: A diagram of a cigarette with text explaining the harmful substances in tobacco smoke. Stroke: A diagram of a brain showing a blocked artery, with text explaining how smoking increases blood pressure and causes artery hardening. Chronic Bronchitis: A diagram of the respiratory system showing inflamed airways. Emphysema: A diagram of a lung showing damaged, over-inflated alveoli. Lung Cancer: A diagram of a lung with a tumor. Heart Disease & Atherosclerosis: A diagram of a heart with a blocked artery. Stomach Ulcer: A diagram of a stomach with an ulcer. Cancer of Esophagus: A diagram of an esophagus with a tumor. Smoking Causes Impaired Teeth: A diagram of a mouth showing gum disease and tooth decay. Smoking Causes Impaired Vision: A diagram of an eye showing damage to the optic nerve. Smoking Causes Impaired Hearing: A diagram of an ear showing damage to the eardrum. Smoking Causes Impaired Skin: A diagram of a hand showing skin damage and wrinkles. <p>The poster also includes a large text block at the top explaining that with every puff on a cigarette, thousands of harmful substances flow through the mouth, down the throat, along the trachea (windpipe), and into the lungs. It lists various harmful substances like gases, liquids, particles, tar, nicotine, and carbon monoxide, and states that each year over 350,000 Americans die due to smoking.</p>
