

Sexual Health Chart– CT012

<p>Description</p>	<p>◆ This superbly laid out, full colour, laminated chart provides sound advice on issues that involve sexual behaviour as well as listing the adverse effects of STI's on your body. The chart is split into three sections. Section 1 illustrates the risk of having sex without using any form of protection - "Pregnancy V Infection." Section 2 gives advice on the various types of contraception to prevent pregnancy and infection and their degrees of effectiveness. Section 3 provides information about the types of infections that can be caught by having unprotected sex. This chart is suitable for use at secondary level to support health education programmes as well as in sexual health clinics and doctors surgeries.</p>
<p>Details</p>	<p>1. Dimension: A2 Size</p>
<p>Image</p>	 <p>The image shows a laminated chart titled "SEXUAL HEALTH TAKE CONTROL - YOU'RE IN CHARGE!".
