

SECA 206 – FE057

Description	<p>◆ Measuring rods, stadiometers and circumference measuring tapes are relatively simple devices in routine medical work. They still have to fulfill challenging clinical requirements. Whether the devices are for in-patient or mobile use, in large or small spaces, for everyday or infrequent use. They all share the renowned seca quality. A quality you can touch and see – in devices that don't warp even after years of use, in measuring slides that always glide smoothly into position and in the consistently precise measurements that such qualities guarantee.</p>
Details	<ol style="list-style-type: none"> 1. Measuring range: 0 – 220 cm / 0 – 87" 2. Graduation: 1 mm / 1/8" 3. Dimensions (WxHxD): 125 x 125 x 173 mm / 4.9 x 4.9 x 6.8" 4. Weight: 202 g / 0.4 lbs
