# SPECIFICATION:

Model : QE SS02

Product name : QE Electron Scale-Quick and easy Height, Weight and BMI measuring Instrument

- QE Scale, quick and easy height, weight and BMI measuring instrument.
- Controlled by microcomputer, without manual operation.
- Automatically measure height and weight and calculate BMI
- Fast measure (480 times per hour)
- Display temperature and time

Measuring Function: Height , Weight , BMI

Sensor: Equipped with high precision strain gauge sensor system

Product Size : 440\*530\*2330mm

Weight measuring range : 1kg- 300kg

Division of weight : 0.1kg

Height measuring range : 600mm – 2000mm

LCD display size : 5.5 inches LCD

Power : 110-240V

Application: Hospital/school/Fitness Centre/Home
