

QE SS03

QE Body fat Analyzer
BMI Digital Weighing Scale
With Height Measure

QE Digital bluetooth
4.0 smart body scale

Display

Ultrasonic Detection

SPECIFICATION:

Model : QE SS03

Product name : QE Electron Scale-Quick and easy Height, Weight & Body Fat Analyzer BMI measuring Instrument

- QE Scale, quick and easy height, weight and BMI measuring instrument.
- Controlled by microcomputer, without manual operation.
- Automatically measure height and weight and calculate BMI
- Automatically measure Fat Index , BMR , Physical Age , Health Score
- Fast measure (480 times per hour)
- Display temperature and time

Measuring Function : Height , Weight , BMI , Fat Index , BMR , Physical Age , Health Score

Sensor : Equipped with high precision strain gauge sensor system

Product Size : 440*530*2330mm

Weight measuring range : 1kg- 300kg

Division of weight : 0.1kg

Height measuring range : 600mm – 2000mm

LCD display size : 7 inches Touch Screen

Methods of measurement of body fat : Four point contact electrode, bioelectrical impedance analysis (BIA)

Power: 110-240V

Application: Hospital/school/Fitness Centre/Home
