

QE B100

QE Digital bluetooth 4.0 smart body scale

QE Digital bluetooth 4.0 smart body scale

18 MEASUREMENT FUNCTIONS

More than you know about your health

Made to measure

Measures the smallest weight changes with a high-precision G-shaped sensor made of manganese steel. Three different algorithms are used to collect and interpret data, achieving half the error margin than that of comparable weighing scales. Measures in Kilograms, pounds, or stone.

SPECIFICATION:

Model: QE B100

Product name : QE Digital bluetooth 4.0 smart body scale

Product Size : 260*260*20.3 mm

Max Weight : 80kg

Methods of measurement of body fat: Four point contact electrode, bioelectrical impedance analysis (BIA)

Measuring Function : Weight, Fat, Water, Muscle, Bone, BMI, Calorie, Visceral & Body Age

Feature : Automatic on-step, Low battery/over-load indication, Auto-zero

Power: 3 x AAA 1.5 volts (Alkaline preferably)
